
Meet Your Departmental Student Advisor!

Lynn Mormino
Physics

k08lm01@kzoo.edu

Hometown: St. Clair Shores, MI

Majors: Physics and Math

Favorite Ice Cream Flavor: Death by Chocolate

Best Adjective to Describe You: Energetic

In 10 words or less, why should someone want to be a part of this department?

Physics is the future, the education and people are awesome.

When did you know you wanted to study this area? What pathway led you to this department?

I knew I wanted to study physics winter of freshman year. I ended up studying physics because I hated the subject in high school and wanted to get my chemistry prerequisites out of the way as soon as possible, and ended up falling in love with it.

What is the best way to get (and stay) connected to this department?

Tea time and just being around the OU study rooms

What would you miss the most if you were no longer a part of this department?

I would miss the homework parties and the great atmosphere.

What are your career aspirations/next steps after K?

Probably physics grad school.

What has been the biggest surprise you have encountered at K?

I was surprised by how close the community is, and how much streaking goes on.

How does your department connect to your other interests and activities?

My main interest at K is Cirque du K, which to me is just playing with physics.

What has been your favorite class at K? Why?

Differential equations was my favorite class because it was so interesting and brought calculus together in a real world way.

What is your SIP?

Physics research at UCLA about quark gluon plasma
