Physical Education

Instructors: Bailey, Cavanagh, Daniels, Duimstra, Farrell, Giard, Goyings, Hall, Horner, Jones, Krajacic, Miller, Murphy, Ott, Powers, Redko, Rice, Riley, Smith, Shabazz, White, Wilson, Zorbo

Through its physical education activity requirement and offerings that carry academic credit, the College honors the "sound mind in a sound body" philosophy that is a landmark of a liberal arts education. Several opportunities for healthful activities are housed in the department of physical education which includes intramurals administration and the department of athletics in addition to the cadre of activity classes.

The Physical Education Graduation Requirement

All students shall earn one unit of physical education (PE) activity, which may be met by electing and satisfactorily completing five activities, each equal to 0.2 units, selected from physical education activity classes, intercollegiate athletics, study abroad, and LandSea, subject to the following conditions:

1. A modified or otherwise specifically planned program will be developed by an advisor in the department for any student having a complete or partial restriction as indicated on that individual's health record.
2. Students are urged to complete the requirement over the period of five quarters.
3. Students may take as many PE activity classes as they desire, but only one unit, or five 0.2-unit activities, will be counted toward the graduation requirement.
4. All activity courses may be repeated as often as desired, with the exception of Outdoor Leadership which carries 0.4 units.
5. Varsity athletes earn .25 units per sport per academic year, and split seasons such as golf will award one activity credit for the academic year, whether the athlete participates in fall or spring or both. Therefore, should a student play 4 seasons of a varsity sport, they will earn the full PE unit. (Effective academic year 2016-2017)
6. One activity credit for physical education may be granted for each six months of military service or each quarter of ROTC training.
7. In some instances students may receive PE activity credit for activity classes on study abroad, especially those indigenous to a particular culture. These credits must be certified through the Center for International Programs.

Activity courses include various opportunities. Some courses require that students furnish their own equipment or transportation; some require a modest fee; but one can achieve the full unit with on-campus, non-fee courses. For on-campus fee courses, the fee is charged directly to the student account; for off-campus fee courses, the student pays the instructor as indicated on the course schedule.

Course categories include Fitness, Dance, Sport Skill, Life Skill/Health, Outdoor, Independent Study, Varsity Sports, and Full Unit.

Fitness: Barre, Developmental Swimming, Individual Fitness, inerTRAIN, K-Cycle, Weight Training, and Yoga

Dance: Ballet (Beginning and Intermediate), Social Dance, and West Coast Swing

Sport Skill: Badminton, Basketball, Equestrian, Racquetball, Scuba (when pool is available 2020), Soccer, Learn to Swim, Tae Kwon Do (Hapkido), Tai Chi, Tennis (Beginning and Advanced) Ultimate Frisbee Club, and Volleyball

Life Skill/Health: CPR and First Aid, Gardening, Step Up, Tower Bell Ringing, Pollinator Gardening, Composting

Outdoor: Arboretum Stewardship, Backpacking, Land/Sea and Land/Sea Leadership, Outdoor Leadership (.4 units), River Canoeing, Rock Climbing, Wilderness First Aid and CPR, Snowshoeing, Mountain Biking

Varsity Sports: Athletes who complete 4 varsity seasons will earn the full PE unit (.25 units per season)
Full Unit: Athletic Training Practicum and Independent Study, Senior Individualized Projects

Independent study activity credit is possible for any activity that is not offered on the course schedule, and for which the student has a certified instructor. All independent studies will need a faculty supervisor and approval by the Chair.

**Academic Physical Education classes**

Academic, full-unit classes are offered through the PE department, although there is no major possibility. The Athletic Training Practicum serves students interested in athletic training, physical therapy, or orthopedic medicine. Independent study full-unit courses are approved by, and done under the supervision of a department faculty member. A syllabus is required, and must be approved by the department chair. These classes are recommended for students interested in coaching, athletics, fitness, or leadership.

**Physical Education courses**

PED 002 Badminton
To learn the basics of Badminton and create an active and fun environment.

PED 003 Basketball
Instruction for all levels of skill in the fundamentals of basketball. Emphasis on the development and improvement of total fitness, skill and general knowledge about basketball for leisure time use.

PED 004 Advanced Basketball
Open to all students who wish to improve their offensive and defensive basketball skill set through high-level, intensive drills. Students should be prepared to participate physically with proper attire, footwear, and physical condition.

PED 006 Circus Arts: Aerials
The goal of this course is to improve students' fitness through circus arts training. The class will provide a safe and supportive setting in which students will push themselves and each other to work out effectively and wisely. A combination of strength, cardio, flexibility, and balance exercises will complement training on the aerial apparatuses. Students will have the opportunity to explore aerial silk, aerial hoop (also known as lyra), and partner acrobatics. Throughout the quarter, students will learn to form performance pieces out of the skills they acquire.

PED 007 Circus Arts: Ground Skills
The goal of this course is to improve students' fitness through circus arts training. The class will provide a safe and supportive setting in which students will push themselves and each other to work out effectively and wisely. A combination of strength, cardio, flexibility, and balance exercises will complement the training. Students will have the opportunity to explore diabolo, juggling, globe walking, yo-yo, hooping and partner acrobatics. Throughout the quarter, students will learn to form performance pieces out of the skills they acquire.

PED 008 Equestrian Club Intro to Riding
Students must contact the instructor for more information, provide own transportation, and pay lesson fees directly to Cedar Lodge. [http://www.cedarlodge.com/](http://www.cedarlodge.com/) For students that have little or no experience with horses. Classes will focus on teaching basic ground and riding skills. This class will teach students how to be confident when handling horses both on the ground and while mounted.

PED 009 Fencing
An introductory course presenting the sport of foil fencing; the emphasis is on safety, skill acquisition and refinement, fun, and development of a healthy lifestyle. Basic Skills of footwork, attacking and defending with a sword are developed through a combination of lessons, drills, and supervised bouts. Also, briefly covered are the equipment used, the history of the different fencing sports, and an introduction to the rules which govern fencing tournaments. The lessons are determined by the interests of the advanced students. Topics may include advanced skills in footwork, attacks to the blade, advanced parries, or tactics. The class may work on other fencing sports such as epee, saber, or the reconstruction of Renaissance rapier combat. These are developed through intensive bouting and individual or small group instruction. Working with beginning fencers continues to reinforce basic skills and gives experience in coaching others.

PED 010 Social Dance
This is a dance class for all levels with an emphasis on dancing for life events such as weddings, dating, corporate/work events, or just going out with friends. This is a class to learn trendy new dances and classic party moves.

PED 014 Learn to Swim
This class is designed to help those who cannot swim, learn the basics of the sport. This includes comfort level in the water,
floating and basic swim strokes. This is an activity worth .2 units.

PED 020 Beginning Racquetball
This class provides instruction for all levels of skill in the fundamentals of racquetball. Emphasis on the basic rules, skill development, and total fitness.

PED 021 Squash
Provides students with appropriate level of knowledge and skills in squash.

PED 022 Recreational Soccer
Instruction and review of basic technical soccer skills. Playing experience in an organized environment is preferred but not required.

PED 024 Indoor Rock Climbing
This class is mostly self-directed and is held off-campus at Climb Kalamazoo. Students learn basic climbing and belaying techniques for climbing, and must participate in the safety training prior to climbing.

PED 027 Scuba
This class covers equipment setup and equipment breakdown, gear usage on both normal and emergency situations, and equipment-familiarization drills. Open-water training is conducted in local lakes or outside this area with special arrangements. Students who complete all requirements receive a lifetime SCUBA certification from the National Association of Underwater Instructors.

PED 030 Tae Kwon Do/ Hapkido
This class will give you martial arts training which uses Tae Kwon Do and Hap Ki Do in combination to create the Moo Sool Do system. The class will familiarize students with the movements, forms, and philosophies that are used in martial arts. Students will learn the art of using the hands and feet for quality self defense

PED 031 Tai Chi
This class explores the mind/body connections and fitness aspects of traditional Chinese internal style martial arts. Each Class includes internal energy (chi) cultivation exercises, stretching and strengthening exercises, work on learning from an internal style Kung Fu form and work on learning a Tai Chi form

PED 032 Judo
This class teaches the Martial Art / Olympic sport of Judo. In this class you will learn the techniques for throwing, falling, pinning, chokes, and arm bars. You will develop both core and physical strength along with cardio, agility, coordination, balance, flexibility, and confidence. What you learn can be used for sport, self defense, or fitness. Course fee $100 for class and $50 for uniform payable to Snyder Dojo. Class is off campus at Snyder Dojo 6545 Stadium Drive (student must provide own transportation). If you have any questions, call or email Snyder Dojo at 269-365-5667 or snyderdojo@hotmail.com

PED 033 Beginning Tennis
Learn many of the basic fundamentals and skills of tennis, as well as learning how to play the game in an enjoyable and active environment.

PED 034 Intermediate Tennis
Learn all of the basic fundamentals and skills of tennis, as well as learning how to play the game in an enjoyable and active environment.

PED 035 Advanced Tennis
Enhance established technical knowledge and learn the necessary competitive skills for singles and doubles in an enjoyable and active environment.

PED 036 Ultimate Frisbee Club Sport
Student must be a member of the club to elect to take this class.

PED 037 Volleyball
Learn basic volleyball skills and how to train for, and compete on a team.

PED 045 Beginning Ballet
An introduction to the fundamentals of Classic Ballet taught in the Vaganova Method (Russian Style). Emphasis will be placed on basic barre work followed by center work and floor combinations. Consideration will be given to body placement and ballet terminology.

PED 046 Intermediate Ballet
A continuation of Classical Ballet taught in the Vaganoca Method (Russian style) with further emphasis placed on more strenuous barre work, elements of dance history, and pre-pointe. Beginning Ballet I is a prerequisite or permission from the instructor.

Prerequisite: Must have taken PED-045 or with instructor permission.

PED 047 Ballet Company Technique
Instructor approval required for this class.

PED 048 Barre a Terre
It is customary for Dancers to both "warm up" before class and to "stretch" afterwards. This class is specifically designed for Ballet Dancers to prepare the body for more intensive activity. However, the class is not exclusive to Classical Ballet and may be useful for those proficient in other forms of dance. Barre a Terre employs a system of non-impact, isometric movements to improve alignment, placement and stability. Exercises are performed on the back, stomach, and side to strengthen and sculpt both the upper and lower body. These sessions provide a most tailored approach to develop core strength as well as facilitate longevity in the joints and muscles. Special attention is provided for prevention of injury through stretching to improve flexibility, balance, mobility, and toning. Attire: loose fitting, comfortable clothes. Hair must be secured and away from the face.

PED 049 Beginning Ballet II
This course continues the introduction to the fundamentals of Classic Ballet taught in the Vaganova Method (Russian Style). Emphasis will be placed on basic barre work followed by center work and floor combinations. Consideration will be given to body placement and ballet terminology.
Prerequisite: Must have taken Beginning Ballet or with instructor permission.

PED 050 Dance Choreography
This course explores different choreographic elements that will help add complexity to our work and develop the ability to look critically at every movement within a choreographed piece.
Prerequisite: Must have taken previous dance class with Kate Yancho or permission of instructor

PED 052 West Coast Swing Dance
West Coast Swing is a slotted partner dance, danced in six count patterns; however, no partner is required to take this course. During the course, students will learn the basic patterns of West Coast Swing: Left Side Pass, Under Arm Turn, Push Break, Front Tuck, Side Tuck, Basket Whip, Whip, Turns &amp; the Starter Step. The benefits of this course will go beyond a physical skill set; students will also develop a greater sense of self-confidence, communication skills, and networking skills.

PED 055 Jazz Dance
Dance your way through the history of the truly American dance form, Jazz Dance. Through movement combinations and music, this class will start with the beginnings and work its way to present trends in jazz dance. This very active class is appropriate for dancers of all levels.

PED 056 Wellspring Dance Classes
Join Wellspring/Cori Terry &amp; Dancers, the only professional dance company in Kalamazoo, for our Adult dance courses and earn PE credit. Our classes are taught by company members and other professional dance educators and span a variety of types. For the 10-week quarter, you will be able to choose your weekly class to fit your schedule and interests. This class is off campus.

PED 070 Stage Combat
This course provides a fundamental knowledge of several different styles of stage combat as well as an understanding of basic fight choreography for stage and film.

PED 084 Adv Physical Training Boot Camp
This 10-week course is designed to optimize your health using the five components of physical fitness: cardiovascular health, muscular strength, muscular endurance, flexibility, and body composition.

PED 085 High Intensity Interval Training
This class is designed to lead participants through a series of cardio and strength training exercises with relatively brief rest intervals in between. Open to all fitness levels and there will be emphasis on exercise safety, technique, progression and modification. The class will use a variety of equipment available on the fitness floor.

PED 092 Developmental Swimming
This course is designed to improve your comfort level in the water, your overall fitness and aerobic capacity, and is swimming on your own for fitness, logged and turned in on a regular basis.

PED 096 K-Cycle (Indoor Cycling)
This course improves fitness, strength, and discipline through extended stationary cycling workouts.

PED 097 Individual Fitness
Develop an awareness of the importance and value of physical fitness in everyday life. The student is responsible for one meeting per week, and the practice and recording of one's own personal fitness plan.

PED 098 inerTRAIN
InerTRAIN is an online personalized fitness training service connecting real trainers to real clients using technology to remove the limitations of time and place so you can work out anytime, anywhere.

PED 098 IS: Independent Study
Students may arrange an independent study through the department chair, if they have an instructor and a plan for sustained instruction and activity throughout the quarter with an activity not offered through the department. The 098 designation implies a .2 activity unit.

PED 100 Kalamazoo Barre
Kalamazoo Barre is an off-campus, fun yet challenging, 50-minute workout, inspired by ballet and Pilates. Certified instructors lead the classes which involve small, isometric movements that promote fat burning and interval training.

PED 101 Barre 360

PED 107 Pilates
This course is designed to take you through the basic moves and components of a Pilate's class: concentration, breathing, quality, focus, body awareness, core control.

PED 108 Equestrian Club Intermediate Riding
Students must contact the instructor for more information, provide own transportation, and pay lesson fees directly to Cedar Lodge. http://www.cedarlodge.com/ For students with some riding experience, students that have already successfully finished the Intro to Riding class at Cedar Lodge, or students that have taken some lessons at another stable. To enter this class, students must already know how to groom, tack and ride with control at a walk and trot. Class will focus on developing existing skills to a higher level and learning new, more advanced technique. This class may be taken more than once.

PED 110 Leaps & Turns: Technique for Dance
This dance class is focused on leaps, turns, dance conditioning, and flexibility. Students should be prepared for high energy, proper dance attire, and an at-your-level intensive instruction.

PED 111 AM Power Workout
Start your day on a healthy foot in AM Power Workout! Classes will combines elements from many group fitness styles including yoga, Pilates, aerobics, circuit training, dance, and more. This efficient workout will build strength and flexibility while also burning calories. You will be charged up and ready to face another day!

PED 116 Weight Training
Are you looking to increase your strength and incorporate weight training into your fitness routine? This class is geared towards beginner strength & conditioning experience and knowledgebase. This class will develop your knowledge and selection of strength training exercises, technique, safety and workout design.

PED 117 Advanced Weight Training
Learn the fundamentals of weight training while helping each student reach their personal fitness goals.

PED 118 Beginning Yoga
The course provides a foundation in the practice of yoga as a holistic approach to health, vigor, and happiness.

PED 124 First Aid and CPR
This course is designed to teach students the currently accepted procedures and principles for CPR and First Aid to be followed in the event of an accident or sudden illness.

PED 126 Gardening
Feel the benefits of gardening to your overall health (mental, physical); understand the fitness/wellness benefits of gardening and gain the basic knowledge and skills needed to grow vegetables that are 100% organic and non-GMO.

PED 127 Pollinator Gardening
In this course, students will engage in work needed to establish and maintain native wildflower plantings on campus, while learning about the different plants and the insect pollinators they attract. Most activities will take outdoors and involve low to moderate amounts of physical activity. No previous experience required.

PED 128 Composting: Worms, Waste, & Well-Being
Composting: Worms, Waste, & Well-being: Students will explore all aspects of the life-death cycle, and practice several food waste composting techniques such as vermicompost, trench compost, and hot compost, as well as learn about the key actors in the composting processes.

PED 129 Permaculture: Designing With Nature
In this course you will cultivate an understanding of permaculture fundamentals and apply these concepts to personal wellness, social relationships, and garden design. Students will develop individual personal wellness design projects and collaborate as a class to create a garden design project that they will implement during Spring quarter.

PED 130 Cooking Basics
Students in Cooking Basics will have the opportunity to learn and practice basic cooking techniques, such as knife skills, pan skills, baking, and basic food preparation.

PED 132 Holistic Nutrition
The objective of this course is for students to learn the impact of different types of foods, beverages and supplements on their bodies, from energy levels to muscle mass to brain function, inflammatory levels, digestion and more. Students will learn how to apply foundational nutrition principles to best fuel their bodies. They get to be their own n=1 "experiment" and will come away with important insight regarding how best to nourish their unique bodies to achieve their desired level of health and wellbeing. This course will be offered entirely online through the software platform Healthie. Healthie is a HIPAA-compliant platform that allows the instructor to teach students via a live webinar format. Students can access the webinars via their computer or the Get Healthie app. Detailed instructions for how to attend the webinars will be sent to students prior to the first week of class. A new webinar will be offered each week at 3 different time slots. Mondays at 12:15 Tuesdays at 2:15pm Wednesdays at 4pm Students must attend one of those time slots each week in order to receive credit for that week's webinar. Webinars are approximately 40 minutes in length.

PED 135 Mind/Body I
In this course we will explore the body & mind while learning how to become more in tune with them in order to lead a more peaceful life. We will build awareness of our own needs and discover practices that will help us in fulfilling them. It is worth 0.4 credits.

PED 136 Mindfulness
The emphasis of this course will involve learning from experience. The experience made available here will be contemplative (or meditation). The course is designed to cultivate an appreciation for everyday experiences and to live in the present moment. This course will involve how each of us can enhance our well being through inward reflection and self-awareness.

PED 140 Coaching Methodology
PED 150 Smoking Cessation
This class increases awareness of smoking behavior, to provide strategies and support of cessation, and to increase fitness levels of participants.

PED 151 Step Up! Be a Leader, Make a Difference
Step Up! is a prosocial behavior and bystander intervention program that educates students to be proactive in helping others. This is an activity worth .2 units.

PED 155 Tower Bell Ringing
Stetson Chapel houses one of only 53 English change ringing towers in North America and the only one in the state of Michigan. Change ringing is a team sport, a musical performance, an ancient art, and a challenging pattern-based exercise that involves a group of people ringing a set of tuned bells rhythmically through a series of changing sequences that are determined by mathematical principles. Despite the fact that the bells are heavy (up to a half-ton in Stetson's tower), change ringing is more mental than physical, but you don't have to be an athlete, a mathematician, or a musician to learn. Instruction is one-on-one in conjunction with attendance at weekly practices of the Kalamazoo College Guild of Change Ringers. Open to first-year students and sophomores or with the instructor's permission.

PED 156 Tower Bell Ringing II
For students who have mastered the rudiments of rope-handling and wish to continue developing their skills in change-ringing.
Prerequisite: PED-155 or PED-156 or Permission

PED 160 Arboretum Stewardship Practicum
The Arboretum Stewardship Practicum affords students the opportunity to participate in and learn about the management of trails and invasive species control at the college's Lillian Anderson Arboretum

PED 163 Introduction to Hiking and Backpacking
This class will introduce students to local outdoor trails and teach introductory hiking and backpacking skills. An overnight backpacking trip is required.

PED 170 Michigan Land/Sea Expedition
PED 172 Introduction to Wilderness Medicine
This course will introduce students to first aid practices when help from emergency services is not readily available. Focus will be on the treatment of common injuries, improvisation of medical equipment, and decision-making regarding evacuations. The course will be conducted virtually. For students who reside in Kalamazoo and who are interested, there may be an opportunity to complete a hands-on exam to receive a 2-year Wilderness First Aid certification. Otherwise the course can be completed without certification.

PED 174 Introduction to Rock Climbing
Students must reside in Kalamazoo to take this course. The Introduction to Rock Climbing course will combine instruction related to gaining skills in the sport of rock climbing with weekly climbing activity in an indoor climbing gym. Topics include climbing technique, familiarization with common climbing equipment, climbing knots, belaying, and principles of
building top-rope climbing anchors. The course requires an additional fee of $120/$160 (with/without rental equipment) for the gym membership, paid to Climb Kalamazoo.

**PED 175 Outdoor Leadership**
The Outdoor Leadership course builds on an individual's outdoor skills to further develop proficiency in group dynamics, leadership, map and compass, trip planning, and outdoor living. The course will be conducted virtually.

**PED 177 Snowshoeing**
This activity-based class will focus on preparing students for winter outdoor travel, with weekly trips to local hiking and snowshoe trails (snow dependent). Students must provide their own winter boots and clothing. Snowshoes will be provided.

**PED 180 Intro to Canoeing**
The fundamentals of canoeing course offers students the opportunity to learn or hone their flat-water canoeing skills. Paddling session will occur around Kalamazoo.

**PED 195 Men's Intercollegiate Sports**
**PED 196 Women's Intercollegiate Sports**

**PED 208 Equestrian Club Advanced Riding**
Students must contact the instructor for more information, provide own transportation, and pay lesson fees directly to Cedar Lodge. http://www.cedarlodge.com/ For students that are proficient in riding english at a walk/trot/canter while maintaining control in a group. Students should already know their leads and diagonals. This class will be working at a faster pace and students should be ready to work at a demanding level both on their skills and physically. New students will need to be approved.

**PED 232 Advanced Holistic Nutrition**
Course fee $80 paid directly to the instructor. Students must have phone or computer with technology to attend weekly seminars. Seminars are offered three times a week and students must attend one per week.

**PED 300 Athletic Training Practicum**
A supervised clinical experience designed to provide exposure to the profession of athletic training and sports medicine. This course will begin to prepare students for careers in allied healthcare, specifically athletic training and physical therapy. Topics addressed will include, but are limited to: prevention, evaluation, treatment and rehabilitation of athletic injuries.  
*Prerequisite: Instructor Permission Required.*
