

How to connect directly to student folders

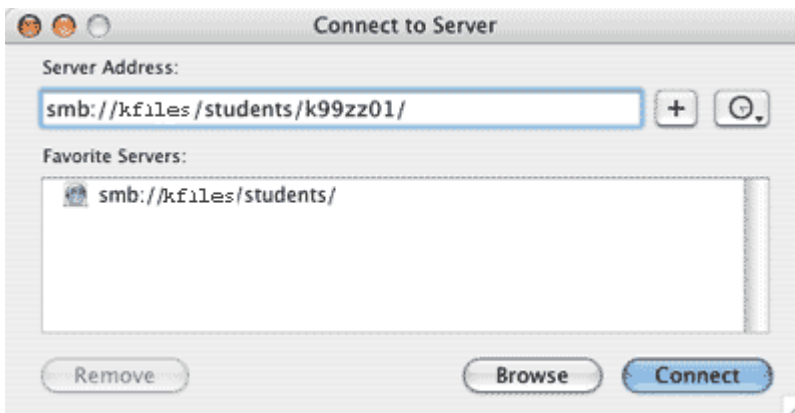

1) From your desktop click “Go” and choose “Connect to Server” or type “Apple”+”K” on the keyboard

2) smb://kfiles/students/ should already be in your “Favorite Servers” if you click on this it will fill it in the server address.

After smb://kfiles/students/ type in your user name followed by a “/” so now in the server address you should see smb://kfiles/students/”username”/

(example: smb://kfiles/students/k99zz01/)

3) Now click “Connect” and a  icon will appear on your desktop and a windows with your files will appear.
